After discussion the council agreed to submit the following comments in response to this planning application:-

The council recommend that this application be approved with the following comments. The council support the recommendations regarding enhanced hedgerows noted by Mr Stephen Robinson. In addition, they request that consideration is given to an initial assessment of the site to ensure that there is no significant archaeology features or artefacts, as this development is very close to a known Roman cemetery.

The cemetery is documented in the national Archaeological Database Index (ARCHI), maintained by the University of York, as follows:-

- Site 94 ROMAN: Site of Roman inhumation at 53.955215, -0.747301
- Site 715 ROMAN: Vase found. Roman cemetery site at 53.954855, -0.747321
